

Association of Economic  
Consultants  
**Pro-Akademia**

**Workshop:  
“Establishment and Enlargement of  
Innovative Renewable Energy-Related R&D  
Networks”**

**POLEKO  
Poznan, 24.11.2010**

## Agenda

1. About the Association of Economic Consultants *Pro-Akademia*
2. About *Bioenergy for the Region* Cluster
3. Recent projects facilitating R&D – business cooperation
4. Recent research projects in the field of economics

## About us

The Association of Economic Consultants Pro-Akademia (AEC PA), with its headquarters in Lodz, was founded and started activity on the 22nd April 1996.

Today, the AEC PA is one of leading non-governmental organizations in Poland that render assistance in the processes of education and entrepreneurship development in Poland. The AEC PA is also one of the largest NGOs working abroad for the benefit of developing countries, especially those mentioned in the European Neighbourhood Policy.

One of the most important advantages of our projects is engaging a lot of different actors — administration, both at national and local level, NGOs, entrepreneurs, high schools and the media.

## About us

### Trainings and consulting

We share our knowledge and experience in the National System of Services for Small and Medium Enterprises (SMEs). Our experts provide a wide range of training schemes and advisory services both for SMEs and public bodies.

Majority of our offer is free of charge thanks to the part-financing by the public funds.

## About us

### International cooperation

Our activities focus on four key policy areas: implementation of territorial cooperation projects aimed at entrepreneurship development and environment protection, support to development of Polish exports, development aid and actions for the benefit of the Poles abroad.

We are a member of the National Polish NGOs platform - 'Grupa Zagranica'.

*About us*

# Public Benefit Organization

## About us

### Corporate Social Responsibility

We promote Corporate Social Responsibility, a concept of constructing strategies of entrepreneurs on the basis of social dialogue and sustainable development rules.

Our experience concentrate not only on supporting entrepreneurship, but on activating and integrating local communities and environment protection.

## *Bioenergy for the Region Cluster*

**Association of Economic Consultants Pro-Akademia is a manager of Bioenergy for the Region Cluster.**

## Bioenergy for the Region Cluster

The main objective of the cluster is to support sustainable bioenergy development of the Lodz Region in Poland in the context of implementation of the integrated energy and climate change [package of the European Commission](#) to cut emissions for the 21st Century.

The territorial area of the project covers the Lodz Region, however to reach its goals, it is carried out also abroad, to benchmark the best eco-energy practices.
